<p>The building will be very intrusive being right next to my garden and directly overlooking this private area, as well as having windows directly facing my own which are also private. The building is too high comprising 2 floors. This will block daylight onto my property. There will be too much traffic going onto and off the already busy and dangerous road, Hopton Lane. Clearly this property will effect loacal amenities. The building will almost completely cover a large grass and planted area which in conjunction with my garden and others would disrupt the local wildlife including bats, hedgehogs, frogs and many other species. This building would also increase light and noise polution. It is next to trees with conservation orders and will undoubtedly impact on those. This propery would negatively impact on at least 10 properties.</p>
