Subject: Unsafe trees hd2 2xf emergency request to fell

CAUTION: External email. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hi

This silver birch has collapsed the embankment and wall bordering my house in hd2 2xf.

As you can see there is land slip and exposed roots. It is not safe. I cannot rebuild the wall without removing the exposed roots which will certainly further destabilise it.

I have just a had tree surgeon round to look and he has said it needs pollarding immediately.

I appreciate this is a conservation area, but in the circumstances please can you grant a 5 day emergency order?

The neighbour who owns the tree is in agreement.

Thanks

Tim Fullen
