<p>I have strong objections to the building on the site behind moor lane.</p> <p>I have concerns with access to the site of the dwellings as you cannot see down the road due to the bushes at number 29. It makes it unsafe for cars pulling out of the junction and the driveway at number 29. Most importantly the safety of the children living at number 29 when crossing the road. The splays documented are inaccurate and make it look like you can see through the bushes when you cannot.</p> <p>During the initial works there was no privacy at the property with multiple workmen on big vehicles looking directly into the kitchen at the back of the house. The work was noisy and dirty leaving dust in the air throughout. noise levels of the machinery and the workers shouting over it made it impossible to sleep during the day between shifts. The sustained disruption caused by the building over time will be unliveable.</p> <p>The houses proposed are much bigger than the original plans and elevated therefore will infringe on the privacy of the houses backing onto the land.</p> <p>Bigger houses means more people and more cars. There is already a lot of traffic on Moor lane this will increase that and therefor make the road less safe.</p>
