<p>I have many objections regarding this developement including the number and size of the buildings.</p> <p>The number of spaces for car parking is much to small and will throw problems onto Moor Lane itself for visitors etc.</p> <p>The maim problem at the moment is how the entrance to the site has been left. Walls were moved back and on the whole the work is okay. However No 25 is left in limbo as the sides have not been finished.</p> <p>The single storey part of No 27 was also to have been removed within 2 years of the original planning agrement. This has NOT been done and the whole part of the driveway is a messy building site. This is also in limbo. As I understand this should have been done and now the Lane looks a mess.</p> <p>I would rather this was made good and the planns for the houses not passed. BUT I suspect this will not happen. Can we have a date for the making good of the driveway or for it to be put back to a reasonable state,</p>
