Good afternoon Danielle

I'm am contacting you in reference to the planning applications 2025/92721 and 92724

The plans submitted for these applications are incorrect and feel it relevant to point it out.

We own both the neighbouring property to the left and the Barn and land to the right we have concerns of parking and turning on our land/property. I have attached plans from the Land Registry

And also attached two pictures showing which part the plan relates to which is within the cobbled stoned area.

Regards
Richard
