Subject: 2025/44/92737 and 2025/61/92713 TPO's not shown

Ms Bearcroft,

I am writing to inform you I have sent an email to Hazel Irving querying her KC Trees response on Planning application 2025/61/92713 [id 1115760] 28/11/2025. This is incorrect because the trees are shown as G17, 4 trees. There are in fact 8 trees with a TPO on them. I have also queried the fact that all the plans on the two planning applications for this site, 2025/44/92737 and 2025/61/92713 are showing the wrong number of trees, wrong classification of trees, shown in the wrong location, on all the plans submitted for these two planning applications.

Please add this comment to the case file for both these planning applications.
