

## Appendix A – Climate Change Statement

### Climate Change Statement for Planning Applications

#### Part 1: Applicant details

Name of applicant/agent	Mr. G. Sutcliffe (agent)
Site Address	5 Norwood Crescent, Birkenstow BD11 2WU (2025/92761)
Description of Development	Proposed single storey extension to rear

#### Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
The proposed extension will be tightly insulated and will be subject to a SAP report.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
The proposed extension to be undertaken by a Local Company employing Local people and materials for building are to be from a Local Builder's Merchant.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Any power tools to be electrically operated -

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

The proposed is new back to the original, house, replacing an inadequate and low insulated part for a much more efficient building.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

This is not in a flood zone.

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

The extension is several steps above ground level, with a suspended floor, therefore any water could be let out via air brick -

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

Not applicable

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

Power tools/cutters to have bags fitted to allow dust/debris to be collected and to be run off electric.
