<p>This is green belt land. We have been inundated with new builds in the last few years. There will be a significant increase in traffic joining Abbey Road. There will be a huge impact on the Eastfield estate with increased traffic going through the estate. If there is an access road to the Knowle this is a major concern as the road is very narrow. There will be a massive impact to Shepley Spring which is a major employer in Shepley. The water they bottle comes from springs under the land where the proposed estate will be situated. If the application is for 120 properties this means approximately 240 additional vehicles and the impact on our village is not sustainable.</p>
