<p>I am objecting to this plan to build houses on this green belt land. Every year these fields are planted with crops which are used as thatching of old historical homes. There are very few farmers growing this crop. These fields also sit on the source of spring water for Shepley Spring. This company employs many local people and any threat to the purity of the water puts their jobs in danger.</p> <p>The road along which construction traffic will reach the site, is an estate road. Narrow and passing close to houses. The access to the estate from the main road is Lea drive which is steep, narrow and dangerous in bad weather. The increase in traffic will be dangerous to pedestrians on the estate.</p>
