<p>I feel this proposed development would be detrimental to the residents and the local area. The current residential area is already busy with traffic either going to the farm, Shepley spring and homes, this makes it hazardous for children and the elderly many of whom live on these streets.</p> <p>The proposed development is for 100+ homes most modern families have at least 2 cars this increase in traffic along with the proposed one way system is going to put extreme pressure on Eastfield and the junction into Abbey Rd exiting this junction is already difficult at certain times of the day and more so in winter when it becomes inaccessible.</p> <p>If the proposed plans call for the implementation of a one way system because it is deemed that the bottom road into the area is too narrow for two way traffic then surely common sense should prevail the infrastructure will just not be able to cope with the increase in traffic.</p> <p>Our local services Doctors, school and dentist are already at capacity and getting an appointment with a G.P in almost impossible having to wait 2 weeks in many cases.</p> <p>The loss of green belt fields will be a massive loss to our local community, effecting health of the residents along with the local wildlife.</p>
