<p>Although I am not against new housing in general the loss of green fields to this is not appropriate. Planning policy should decide if this is grey land not the developers. The proposed one way system will inconvenience local residents and the intended way out is impassable during winter weather and dangerous at the best of times with poor visibility towards Shepley, another 200 vehicles plus all the existing having to exit this way is not safe. Shepley spring are without doubt one of the biggest local employers and this development could jeopardize their future.</p>
