<p>This is green belt land and developers cannot reclassify it to enable them to build on it. The site is near Shepley Spring and I wonder how this development will impact on the water that they are using e.g whether there will be contamination.</p> <p>Already it is getting difficult to get appointments at the local GP surgery. Will the developer fund another GP and necessary space to accommodate the extra GP needed to cope with these additional patients.</p> <p>If it goes ahead the developer should be made to build the additional infrastructure before the houses as we've seen another developer in Shepley go into administration before building the promised children's play ground.</p>
