I have lived in Shepley since 1967 and am appalled at this application. The village has been inundated with such applications for many years but the thought of 120 houses on this site is disgusting as it is green belt. The village is already struggling with a lack of amenities including doctors, schools and very poor local transport. I am also worried about the effect on Shepley Spring as it's aquifers run under the proposed site. This business is a strong supporter of the village and has been for many years. There are still many question marks over this application due to a lack of detailed information.
