<p>The developer has already proved to be 'economical with the truth' and therefore not to be trusted with future promises. There is no supermarket in Shepley. People will not walk to shops and station, the majority will not be able to given the topography, distance and very dangerous road. One way system absurd and not safe given school drop off activity and exceptionally steep slope onto a major road. Shepley Spring is a great employer and should be protected not threatened and their business put in jeopardy. Green field sites should be protected, brown field sites developed first. Existing new housing is already not selling in Shepley and nearby. Yorkshire Water cannot support the scheme - a very important fact. Plans and any variations should be rejected outright.</p>
