<p>I strongly object to building another housing estate in Shepley. This is Green Belt land and should not even be considered for building. Damage to underground water supply is a strong possibility and irreversible. Traffic congestion will be an ongoing problem and how are HGV's to access the site without entering Knowle Park to deliver building materials and whatever else is required? This is a residential estate and unsuitable for large commercial vehicles. Shepley's infrastructure and services are already overstretched and this proposed development will make matters much worse. Added to all this is the fact that existing local housing developments are failing to sell as there are far too many new houses available of the type proposed here.</p>
