<p>I wish to strongly object to this application . I have a number of grounds</p> <p>1 - the land is Greenbelt and this proposed development will impact significantly on the environment and ecology of the area.</p> <p>2 - there will be significant traffic and highways issues if this proceeds . The Shepley area already has a number of highways issues , logged with the council over months . The volume of traffic , the double parking , the ascent to sovereign crossroads , the accident black spot that exists at the junction of Carr Lane along with the volume that this development will create , means more risk and more accidents.</p> <p>3 -the village already has development which has resulted in increased noise and pollution over a protracted period . The council cannot ignore the cumulative impact of this .</p> <p>4 - the development will impact the aquifers and the business of Shepley Spring. A local and trusted employer will experience detrimental impacts if this proceeds , potentially threatening employment .</p>
