Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>I write to object about the proposed application. The impact this would have on the existing residents living on the estate due heavy plant traffic having to come through the estate to get to the site would be disturbing and also damaging to the substandard roads around the estate, the proposed alteration of traffic flow making all traffic exit from the south, which is dangerous in winter due to the gradient of that exit, many vehicles in winter have slid into the main road due to frost, ice and snow. This could cause injury to people or children travelling to our over subscribed school or even death, who would then be held accountable.</p> <p>The gradient of this exit does not meet the highways present regulations.</p> <p>also residents would have to put up with noise, dust and disturbance for years.</p> <p>The roads on this estate are made up of concrete and a thin layer of tarmac, which are breaking up and unfit for purpose.</p> <p>Who ever thought of these ideas obviously isn't local.</p> <p>If I think of anything else I will resubmit.</p>
