| <p>I am against this development in the first instance the access to and from the site is not suitable for a large volume of traffic. The proposed one way system does not apply to traffic from Shepley Spring or Etex Polythene so lorries/cars can travel both ways on a very narrow road. The exit proposal is down a steep incline directly onto the main road, I've seen vehicle sliding all over it winter. The volume of traffic will be unsuitable for the current quiet estate roads. At present it is nearly impossible to get access to the doctors so this will have a severe impact. Also has Yorkshire water assessed if the water supply - sewers can cope, we don't want sewage spilling into our streams etc. Can the school cope with a large influx of new pupils? Please do not allow this to go ahead already the character of the village has been compromised by the recent developments</p> | |
