<p>The land is green belt and should not be build on. As a family we specifically choose to move to Shepley for the quiet, rural area. If this development goes ahead, my house will face a building site have constant extra traffic for the amount of homes being built suggested. The traffic implication is a real concern, more congestion, risk for current occupants in the vicinity, children will no longer be able to play on the street safely or walk to school. I do not want my children, pets or neighbours put at additional risk from lots of cars, noise pollution and lack of privacy. My house is at the end of Eastfield and faces the fields, if this goes ahead it will ruin the village. We will no longer want to live in our house as the quiet, peaceful street will be peaceful no more. I do feel that if we decide to sell because of this our property value will definitely decrease.</p>
