<p>I object to this development because we live close to the fields and our road would be directly affected by increased traffic, noise and disruption. The land is still Green Belt, and the application does not justify building on protected countryside. Part of the site lies in SPZ1, posing unnecessary risk to drinking-water sources with only a basic desk study provided. The proposal also fails to explain how overhead pylons or the use of a public footpath for access would be safely managed. This development would permanently damage the character of our village and reduce the wellbeing of local residents.</p>
