<p>I strongly object to this proposal as it would significantly impact our road, increasing congestion and reducing safety for pedestrians and families. The site remains Green Belt, and no adequate case has been made for its loss. The inclusion of SPZ1 land raises serious concerns about water protection, especially with such limited assessment from the applicant. There is also no clear plan for dealing with existing pylons or the reported use of a public footpath for vehicle access. Overall, the development would harm our environment, our community, and the character of the village</p>
