<p>The proposed development will fundamentally alter the quality of life for existing residents, both short term and long term. Noise pollution whilst building and extra traffic during and on completion of the development. The local facilities are already stretched to capacity and beyond, including schools and doctors. The dirt on local roads and dust created for the surrounding properties is untenable. The loss of the green space would be tragic and in no way is compensated for by the proposed plan. There are already many houses being constructed down the road so I fail to see the necessity for these. The proposed alterations to traffic flow will cause confusion and congestion and in addition to this extra traffic generated would add to the known problems further up the main road with the accident black spot.</p> <p>For all the above reasons, I strongly oppose this proposed plan.</p>
