<p>There has been far too many new housing developments in Shepley. We do not have the amenities to support all these new houses. The little cop op is far too small to accommodate another 110 houses. The school is already over subscribed in certain classes and the parking in village is also already so dangerous adding more cars to the village is a hazard to all the fellow villagers who live here. If you are going to add more houses then you need add more space for parking and as that won't happen by the council then the houses shouldn't be built. The houses are always over priced and poorly built. We live in a village for the scenery not a town but the way we are going the village will no longer be a village it would turn into a town. The top of Shepley by the Sovereign is already dangerous due to people's dangerous driving, there has been several crashes in the last six months due to how much more busy the roads are, again adding 110 more houses is literally a death waiting to happen. Please do not let the housing development happen and go and build in places that need more houses, as I believe this village does not.</p>
