<p>Dear Mrs Louise Bearcroft,</p> <p>I would like to object to this housing application for several reasons and hope the building development application is not supported.</p> <p>In particular my objections are associated with:-</p> <ol style="list-style-type: none">1. The sheer size of the application and number of houses proposed for a small village that has just completed one new housing development and 30% of the way through another.2. The fact that a huge area of greenbelt land is been considered for use is just unbelievable .3. The nightmare it will be for for the residents of Eastfield and Stonecroft gardens during the potential construction work including noise and air contamination. A significant amount of residents in the local area older and the environmental impact of the construction will impact the elderly residents hard.4. The local access/egress roadways are not designed for the construction equipment or the massive increase in traffic volume the proposed new housing would generate.5. Local services (Shepley surgery and Shepley school) are already bursting at the seams6. The disruption to the local walking areas and peaceful tranquility of the area where the construction is proposed.7. I understand that part of the site is SPZ1 - A groundwater source area that feeds directly to a local business. this could have a significant impact on the business which we do not want to lose. <p>I suggest the proposed development is totally in the wrong place and the wrong size for the village .</p> <p>Please ensure you do the right thing and refuse planning permission.</p>
