<p>This development will take good agricultural land out of use when the country is not producing sufficient food. The proposal will be on a Green Fields and surely there are brown fields available for development. The road access is the minimum width for two way traffic and would lead to an increase of vehicles (a possible 200) accessing Abbey Road on a poorly sighted junction with parked vehicles to the left and right. The increase of local vehicles could also further exacerbate the issues at the Carr Lane/Cross lane and Sovereign crossroads.</p> <p>Other issues to consider are the probable expansion of the local schooling and medical facilities and where the funds and qualified persons would be found.</p>
