<p>I object to the 200 houses that are proposed to be built on east field in shepley. This will have a massive impact on the local village school which is overcrowded as it is . Also this will impact the local doctors surgery. I object strongly to double yellow lines being put down on east field as my elderly in-laws live here and have regular food deliveries and carers parking on the road.</p> <p>I think the proposed one way system is unworkable because going down Lea drive in winter ice's up and this is very dangerous because it heads onto a busy main road. Locals use the knowl in winter as the is workable/ safe. The build area in question is a green belt area. The build will affect the water supply and electricity as the village already has power cuts.</p>
