<p>I object strongly for the following.</p> <ol style="list-style-type: none">1) The site, after many years as green belt with limited agricultural access has been designated as greybelt. This puts the whole greenbelt under threat from Ad Hoc piecemeal re-designation.2) The lower field is protected as the aquifer of "Shepley Spring" whose bottling plant is adjacent to the site. Any development should be halted until a thorough Hydrologist report is done which guarantees that development will not damage the source.3) There is only one road access to the site via Eastfield and two routes to the A629 via Lea Drive and the Knowle. Both construction traffic and up to 270 cars from the development would make the area, congested and hazardous especially at school times.
