<p>As a resident next to the proposed development, I use the proposed one way system in reverse to that proposed during adverse weather, due to the dangerous 1 in 7 incline directly onto the A629. Loss of the knowle option to leave the site, with the increased traffic all forced via that incline will inevitably result in accidents.</p> <p>Local shops/ amenities already lack adequate parking in the Marsh Lane, Station road area. The school places would be stretched for Shepley residents.</p> <p>The loss of greenbelt would be questionable when brownfield sites are available in West Yorkshire.</p> <p>The site will occupy a significant part of the site over the aquifer protected by the Environment agency on behalf of Shepley Spring drinking water company, a very important local employer.</p>
