<p>I am objecting to this development because Shepley does not have the local infrastructure to support another housing development. There are insufficient resources locally to support another housing development of this scale, in particular with regard to the availability of school places, and the capacity of Shepley surgery to accommodate so many more patients. It is difficult to fully establish the negative impact this will have because of the existing development on Abbey Road which is yet to be finished. The increase in traffic from this development alone will be substantial when it is finishes, and the Eastfield site will further compound the problem.</p> <p>Rural communities cannot support this level of housing development unless the developers are to provide better resources for everyone as part of the new development. For this reason, I believe this application should be refused, and developments should instead prioritise the considerable amount of brownfield sites across Kirklees, which can manage such a big increase in population.</p>
