| <p>I object to this large and inappropriate development on the following grounds . Children walk to school and back through this area of proposed development and the surrounding area. It is a safe route and enables an important part of childhood. It also reduces the amount of cars taking children to school because parents and grandparents feel at the moment this is a safe route Children can play outside in this safe area, this is something we all want to see to avoid children spending time on screens and becoming unfit .</p> <p>The area of proposed development is high in wildlife, flora and fauna. Once gone this can not be replaced.<br/>It will also result in increased pollution from increased traffic .</p> <p>There are natural springs in this area and this will impact on local business, jobs and the environment.</p> <p>Shepley has recently had a large amount of housing developments<br/>A large development such as this is not fitting for the village feel that is important to community cohesion.</p> |     |
