Subject: Proposed development on Shepley Spring Protection Zone

I attended a meeting at Shepley Church Nov 19th 7.00 pm. I strongly appose this planning application. I often walk with my dog along the footpath to car road. I know this Labour Goverment say build, build.

This is an unsuitable area. Shepley Springs have run a viable family buisness for many years employing many people. It doesn't bare thinking about what could contaminate this water supply if building work was granted. Road from the proposed sight are not suitable for heavy machinery and lorries converging down on the main A629. Shepley School and Doctors are almost full to capacity. The road past the COOP and way up Marsh Lane are becomeing regular car parking areas makeing it difficult for such as buses to get through. We do not another urban sprawl in Shepley.

Yours sincerely
