<p>I wish to add my objection to the plans to build 110 houses on the greenbelt land off Eastfield in Shepley. I feel the development to be totally inappropriate due to the location & impact it will have on villagers. Can current infrastructure, schools, health centre etc support a development of this size? Try driving out of the village at most times of the day, parking issues are problematic especially on Station Road & at the junction of Abbey Road. This development will only add to the chaos that already ensues. The proposed development appears to require a one way system to be put in place resulting in a difficult exit to an already busy road which can be treacherous in adverse weather. Water table problems for Shepley Spring would also have an adverse affect on a large well established employer in the village. I am not against new development but one of this size would be detrimental to green spaces, wildlife and the future of Shepley as a whole</p>
