<p>I wish to object to the proposed plan for various reasons. The proposed access to the site is unsuitable and dangerous as it would be through an existing narrow road through a residential area and down a steep slope ( often treacherous in winter) on to the busy A629 road. The village amenities comprise a small Co-op shop ( with no car park), a small medical centre (already at capacity with registered patients) and a small village infant school which is also at capacity for number of pupils. There is no car park in the village and a real problem with existing residents parking on pavements in the village centre and near to the school because of the amount of traffic on narrow roads. This proposed development would negatively affect all these issues.</p>
