<p>Access to the site is limited. The proposed entrance to the site is from an existing housing estate. The number of properties proposed would cause excess, bottle necked, traffic at the entrance. I have concerns over the damage to infrastructure in the existing estate, initially from construction vehicles, but then many additional cars of the future residents.</p> <p>An additional estate of this size would also put preassure on amenities in the village. The traffic issues outside the local Co-op are already apparent and making this area unsafe for pedestians, as more people park to use the shop.</p> <p>I am also concerned about the impact on wildlife in the area, especially given the wooded area to the rear and side of the proposed area for development. I was raised in the village and my family still live there, over the years I have seen a decline in the wildlife in the area in particular, hedgehogs, this development will only worsen things.</p>
