<p>I wish to object to this planning application.</p> <p>This proposed development is on greenbelt land and will destroy valuable farmland and woodland, resulting in loss of natural habitat for the wildlife of Shepley.</p> <p>We have 2 housing developments in Shepley that are still not finished and have impacted on village life considerably. We do not need a 3rd creating more noise and disruption to local residents.</p> <p>The proposed one way system for access to this site is not suitable and will create more traffic issues and be unsafe when trying to access the main road.</p> <p>The village infrastructure can not sustain the influx of residents that a development of this size will bring</p> <p>The doctors are full, the dentist is full along with the local schools.</p> <p>The increase of cars from this development will also create more parking issues in the village centre and make navigating Marsh Lane and Station Rd even harder.</p> <p>I also believe this development will negatively impact on our local business Shepley Springs operation, who support and employ many residents of our village.</p>
