<p>Shepley and Shelley have already had new housing estates being built on them in recent years. These new houses have put strains on our little village with more traffic, more GP appointments, more school places and yet nothing has been done on the infrastructure. Shepley is a one shop village not a city or town. This is not about affordable housing and tackling the housing crisis its about developers making as much money as they can from building in the hd8 postcode. More houses will just put even more pressure on the services we have seen already depleting because of the other new estates. Not to mention the impact on our nature that lives in this greenbelt land. We have wild deer, bats, owls and many more woodland creatures living in harmony in our village. The hedgerow allows for drainage which is already becoming an issue from the new estates they have built to destroy more is just ludicrous. In addition there are plenty of brownbelt sites and old industrial buildings that would make perfect properties for developers that are not being touched. Touch them first and leave the greenbelt alone</p>
