I object to this planning application as I think it will really change the character of my village and make it not as lovely to live in. I am 16 and grown up all my life in Shepley. What makes it special is the surrounding countryside and wildlife. At school I learnt about the protections of green belt land to ensure our valuable and precious agricultural land and landscapes are protected. This developer is trying to manipulate the planning system to allow the building of more houses, and it shouldn't be allowed. I often play on the field and walk in the war memorial woods and have seen agricultural crops being grown on these fields and have seen wildlife there including owls, foxes and when I am lucky deer. These fields are agricultural green belt that need to be protected from development.

I also walk twice a day along Stonecroft Gardens and Eastfield to and from my school bus. All the additional cars would make this road feel even more unsafe. At school time the roads are already lined with parked cars and others speeding in to find a space when they are late and it's raining and this will be added to by all the cars coming out of the proposed estate. Also in winter that road is very dangerous, I have been in a car when it has slid down to the road and it was terrifying, I really hope you don't make me have to go through that every winter. Also I would be really scared of other cars sliding down there and hitting me on the pavement when I get my bus.

Please can you reject this planning proposal and keep our village as lovely and as safe as it is.
