<p>I would like to object to the new houses being planned at the end of my road. I am nine years old and live right next to where the houses would be built.</p> <p>One of my biggest worries is that it will make our street a lot less safe. At the moment, our road is really quiet because it's a cul-de-sac, so me and my friends can play football outside without cars coming fast around the corner. I've only just been allowed to walk to school on my own because my mum and dad feel our road is safe enough. If lots of new cars start using our street to get to the houses, I won't be able to do that anymore, and when my brother and sister get older, they probably won't be allowed to either. I think it will make it too dangerous for children.</p> <p>I'm also sad about the green area being taken away. There are lots of trees and places where wildlife lives, and it makes our village feel calm and nice. If it gets built on, all of that will be gone forever, and it will change what our village looks like. The plans seem really different to the houses we already have, so I think it will make the end of the village look out of place.</p> <p>The building work would also make the road much noisier and busier. It's already a small street, and all those construction vehicles would make it hard for kids to walk around safely.</p> <p>I know building houses is sometimes important, but I don't think this is the right place for it because of how it will affect children's safety, the natural environment, and the way our village looks.</p> <p>Thank you for reading my comment.</p>
