<p>Currently, I am studying away at university, but I was born and raised in Shepley and I am likely to return as I have a job offer with a local business to take up after university.</p> <p>I consider myself to be one of those young adults who will struggle to get onto the property ladder. The planning application gives no information about how it might help somebody in my situation. From what I can see, it won't help me personally, or people in my position, at all and beyond that I can only see negatives for the village and the local area. So, I object.</p> <p>There are many negatives which, taken together, are overwhelming: loss of rural land, additional demand on poor local public transport, additional demand on local services which are already full, damage to the existing residential estate by more than doubling its size, safety issues due to inadequate access to the site, potential damage to the business of Shepley Spring, and increased commuting and local traffic on the local roads.</p>
