<p>I believe there are several reasons this development shouldn't go ahead...</p> <ol style="list-style-type: none">1. the gradient of Lea Drive is too steep where it joins Abbey Road, whenever there is ice or snow it becomes extremely dangerous to cars attempting to go up or down this stretch.2. there are children who play outside their houses on Lea Drive, Eastfield and Knowle Park Avenue. With this increased traffic there is a risk of accidents.3. The parking situation for Shepley 1st School is already very bad around school run times at the junction of Lea drive and Stone Croft Gardens. With extra traffic this would be an absolute disaster.4. the land is green belt, this is the definition of urban sprawl. Shepley is a small village with small village amenities, if you add such a large number of houses (in addition to those already added on Abbey Road in the last few years) then it will ruin the small village feel and put strain on these amenities
