Re: Objection to Planning Application **2025/60/92776/E**

Dear Louise,

I am writing to object to the above planning application due to serious concerns about the impact the proposed development will have on local safety and essential community services. I visit my son and grandchildren

1. Traffic Safety and Increased Risk to Children

The development will result in a significant increase in traffic movements in an area that is already under strain. I am particularly concerned about the safety of my grandchildren, who regularly walk and cycle in the vicinity. The surrounding roads are not designed for a substantial rise in vehicle volume, and additional traffic will increase the likelihood of accidents, congestion at peak times, and unsafe conditions for pedestrians—especially children.

2. Impact on Local Schools and Class Sizes

The proposed development will place further pressure on education services, leading to larger class sizes and reduced individual support for pupils. I am concerned about the long-term impact this will have on my grandchildren's education and wellbeing, as well as on the wider community.

Regards,
