Subject: Planning Objection 2025/60/92776/E - Letter of Objection

Dear Louise,

I am writing to object to the above planning application due to serious concerns about the impact the proposed development will have on local safety and essential community services. Along with my wife I visit my son and grandchildren

The proposed development will result in a substantial rise in traffic on roads that are already busy and difficult to navigate safely. My grandchildren regularly walk in this area, and I am deeply concerned that the increased volume of vehicles will heighten the risk of accidents. The roads are not designed to accommodate such growth, and the application provides no meaningful measures to protect pedestrians—particularly children.

2. Impact on Education and Overcrowded Classrooms

Additional families moving into the area will inevitably lead to larger class sizes and reduced individual attention for pupils. This will affect the quality of education available to my grandchildren and the wider community. The application does not demonstrate how extra school places or resources will be provided to meet increased demand.

Regards,
