<p>I am objecting because this development would significantly increase traffic on narrow village roads that are already struggling with current volumes. The proposed one-way system does not solve congestion and would create new safety risks for children walking to school, dog walkers and older residents. Construction vehicles alone would cause months of disruption, noise and restricted access. The lack of proper traffic modelling for peak times is a serious oversight. This development would make our roads more dangerous and reduce the quality of life for everyone who relies on them.</p>
