<p>I want to object to this planning application. We have lived in the village for 20 years and can already see the impact of the recent developments on brown field sites to the village facilities and traffic. I understand the need for more housing and agree with the direction but I cannot understand why this location works in any way. The access to the site is very difficult and if we allow this then is any green belt land safe. Shepley is a great place to live and the demand will be there for the houses but the developers time and time again do not think of the community and build just for profit and move on. Leaving a very much changed village which will be impacted by increased traffic, reduced green belt land around it, resulting in a negative impact to the village and the environment we currently live in. Consider better brown field smaller development sites first before we embark on the larger green field site developments. That is harder and slower but rushing these will lead to worse decisions being made.</p> <p>Thank you.</p>
