<p>I object to this application because it will result in a dangerous traffic situation entering the main road through Shepley from Lea Drive which is a steep hill which will not be gritted in winter. To make it one way will result in traffic entering the estate via the same access as heavy vehicles going to Shepley Spring factory which has a large amount of traffic movements every day turning in and out of a narrow road. There is already a problem with traffic on the estate at school times. Further to this is the risk of affecting the water for Shepley Spring, a valuable resource and no doubt valuable income for Kirklees Council if it were to close because of contamination from sewage or surface water permeating the spring.</p> <p>If this construction is permitted the increase in population will further the pressure on Shepley Health Centre where one already has to wait weeks for a non-urgent appointment or a blood test.</p> <p>Furthermore, where will the children of primary school age go to school? I understand the school is already full. Will they have to be bussed somewhere else?</p> <p>We already have a new estate on the main road and I don't think the sewage capacity has been increased so to add so amny more houses can only lead to problems of blockages and overflows.</p>
