Subject: Proposed development on Sheply Fields in East Field 2025/60/92776/E

I wish to strongly object to the proposed development on Sheply Fields in East Field. My objections are: 1) This development would be built on green belt land. 2) It would increase traffic by at least 110 more vehicles if each house had one car, though many households nowadays have more than one. 3) Can the sewers handle the amount of waste this would produce? More houses also mean more water usage, and we experienced a water shortage last year. 4) Can the health center manage the increased volume of appointments? It's already difficult enough as it is. 5) Does the school have the capacity to take more children?

I strongly Object
