I am writing to submit my objection to the proposed development of 110 houses on the Eastfield site reference 2025/60/92776/E

I am very concerned about the amount of development and impact on the amount of traffic, local GP practices and schools. Working in healthcare I have already seen the pressure created by increases in patient numbers and impact that has on accessing already stretched services. As we have an aging population with increasing numbers of co-morbidities the demand for healthcare services is only going to increase.

The volume of traffic using our roads is also of significant concern as our access to regular buses becomes more challenging.

That is why so many residents in our area rely on having their own vehicle so so many additional houses will create more traffic. This is particularly relevant given the amount of traffic incidents in the Shepley and Shelley area and the ongoing operations by the police to take enforcement action.

I would like you to note my objection but wish to be anonymous online.

Yours sincerely
