<p>I live above at the caretakers flat,59 granville street,wf132nf.This developement will severely impact my view from my living room and my bedroom as this tower will be directly opposite my flat.It will also make access to my flat virtually impossible,in particular moving any large bulky furniture etc.Im also worried about my parking access and im worried ive always got to be ready to move my car incase the tower needs maintenance.any potential noise from the electrical units in the boxes will also impact my life.I STRONGLY OPPOSE THESE PLANS.</p>
