| <p>According to plans, no provisions have being made for cars to be parked on the drive as the car port is being converted into a room. The street is a cul-de-sac and residents of the street go to the bottom of the road to turn around their cars to go out. If there's more than 2 cars parked outside it makes it very difficult. Also theres access for a house which is situated on clerk green who park at the bottom of the street as well to access the back of their property. Also works have already started without planning being passed.</p> | |
