<p>Why weren't notices put up around this property for residents to inspect the planning application. Isn't that what usually happens?</p> <p>This house is empty at moment. I would like to know who will live there &amp; will they be responsible for the care of children in the home. Will it be Social Services ?Also how many children in care are expected to live there?</p> <p>The Scaffolding had been around number 24&amp;26 for months.</p> <p>I wish to reject this planning application as I don't think our road is appropriate for a childrens home which will bring lots of problems &amp; noise from these children also the building extensions to the property will have an effect on neighbouring properties .</p> <p>Traffic &amp; parking are always a problem too.</p> <p>I think a much quieter area would be more beneficial for everyone.</p>
